HERE'S WHAT PEOPLE ARE SAYING

“ I am astounded at the way in which the team have connected with my daughter, age 16. Since meeting with them her light has been ignited, she has lost self belief due to the restrictions of feeling stuck and that her only direction was to stay in sixth form. Feeling uninspired daily has taken its toll. A conscientious, bright young lady with so much to give the world didn't understand that opportunities were out there until she met with the team.

The way in which they connected with her will be life changing and monumental in her future. Seeing her with so much excitement and self belief is a blessing for me as a parent. This will not only positively impact her future professional life but also personal too. ”

- Carly Harvey, Parent

“ Bailey came home last night and he was buzzing. He literally stood in the front room for an hour telling us about all of the people that he met, all of the projects he's found out about and all of these opportunities that are now in his hands, he is absolutely buzzing.

It is one of the most refreshing things my wife and I have seen from him in a long time. From the bottom of our hearts we will forever be grateful for what you have been able to give our son. ”

- Mike Readings, Parent

EVENTS & EXPERIENCES

We work with both corporate and community partners to curate transformative events and experiences to create opportunities for the young people we work with. Here are some examples...

Curious about industry experience with **MOLA**

Lead ingition coach Sam Squire took a group of 16-24 year olds to our first 'Curious About Industry' experience at the Museum of London Archaeology.

At MOLA's processing centre in Stansted, the group had the opportunity to learn and explore technology and archaeology, channelling their creativity. The young people worked together to produce a short film from scratch during their week with the archaeological professionals.

Curious about ice cream with **Olive Academy**

We took five students from alternative provision on an entrepreneurial journey, learning about business and igniting their characteristics. Guided by our Lead Ignition Coach, Sam Squire, the students took charge of the cart and steered the project, building their brand, negotiating with suppliers, setting prices and learning how to entice and sell to customers. The young people also learned about food hygiene, licensing requirements, and the art of pitching for space at events or co-working buildings.

The young people came away from the day oozing with newfound confidence and proudly told our Founder, Alex Hughes, "**I can talk to people**", "**I can sell**", and "**What is next? I want to learn more about business**".

“Thank you for an amazing project, which I am sure will have a long lasting positive impact on our young people. I can honestly say, it couldn't have gone any better! The outcomes observed today are testament to the brilliant work all of you have put in over the last few weeks. This experience will be life changing for our young people.”

- Deputy Headteacher, Olive Academy

Curious about work experience with Bidwells

As part of our partnership with the leading property consultancy firm, Inspire 2 Ignite worked collaboratively with the Bidwells' talent team to offer a unique and incredible opportunity for young people to embed themselves in the company this summer.

The 5-day programme reimagined the traditional 'work experience' for young people experiencing or at risk of NEET (not in Education, Employment or Training) to design their very own town and gain hands-on experience in every aspect of Bidwells' operations and departments.

The participants experienced a fully supported, transformational deep dive into the organisations culture.
